

If North Bay was the best it could be what would it look like and how would we get there.

I think a great North Bay, would be one that attracts new citizens to our city, young professionals, families and seniors. We need to make people want to move to our city. Some of the many ways to do that is to invest in city beautification, attractions and parks. More ways to do this is to invest in infrastructure and funding our economic development department adequately to go out and attract the companies our city needs in order to create the jobs our city could really use. Our city's debt is at \$61,941,801 as of the 2012 financial statement (2013 has not been released yet) I believe by bringing new citizens to our city along with companies that our tax base will improve drastically and allow us to pay our debt down quicker. Let's move our city forward and elect me Sheldon Forgette.
